Nurse's Report:

Fluoride- We will be doing fluoride treatments and dental screenings for free for all elementary students this month, with the assistance of a dental hygienist from Colorado Springs.

Tobacco Collation- With the help of Alamosa County Public Health we will be forming another student tobacco collation group within our middle school students. These students will learn about the risks and negative effects of

tobacco and other substances. These students will then present and have activities for the other middle school and high school students during drug free week at the end of this month.

• Parent and Community Communication

• Parent Teacher Conferences were held September 23-25, with a high rate of attendance in the elementary and teachers in the secondary reported having more parents this year than in years following COVID.

# Superintendent Report: Dave Crews reported:

### **Academic Achievements:**

1. **Student Performance:** We have met with the Colorado Department of Education on Oct 1 for our initial meeting to request to reconsider for accreditation. We have two areas of school data that they will review to determine if we can move form accredited to accredited w/ distinction. They will look at our k-2 reading and math data as well as our matriculation data. We will submit this information this week and hopefully receive an answer by early November.

# **Curriculum Development and Implementation:**

• **Professional Development:** We have a staff work day on October 18. Our staff will be reviewing our latest student data to make instructional adjustments for the remainder of the semester.

### **CASB Information**

In partnership with the Colorado Association of School Boards (CASB), the Colorado BOCES
 Association, and Colorado Digital Learning Solutions (CDLS), an AI survey has been developed
 specifically for school board members. CASB will be distributing the survey to all school boards
 in late October or early November, ahead of the December conference, but I am also able to
 share it now. See attached

### Financial Management:

• SDC passed a policy last year where sick leave days are cumulative to forty days (40) When we talked about this, we understood that we had a handful of staff that had well over 40 days. The idea was that we would look at buying their days down to 40 so everyone is on an equal playing field. We came up with paying those people \$50 a day for their unused sick days. In order to do that we would need to spend about \$20,000 to buy all who is over forty days.

This would reward the dedicated employees that have been here for years and have not taken advantage of the sick leave. This has saved us money and kept consistency in the classroom. Buying down to 40 days for these employees will limit the exposure of days that they can use in the future.

An example would be we have a teacher that has 80 days of leave, potentially if she took all 80 days we would have to get a sub for 80 days at \$150 a day. Which comes out to be. \$12,000. We would have a few of these scenarios. If you would support buying back these days, we have found some rural school one-time money that would cover the costs. We can move it to action at the meeting.

# Infrastructure Security:

• We have made a change in what we call a lockout in our emergency procedures. If we have to go into a lockout we will call it SECURE. This will reduce the confusion between a lock out and a lock down.

## Maintenance:

- Our current water measurement is
- We have not received any information back from the construction companies who we have reached out to

### **October Count**

• Our initial numbers from our October count data have us down about twenty students

**Conclusion:** As the 2024-2025 school year continues we remain committed to continuous improvement and collaboration with all stakeholders to ensure every student reaches their fullest potential.
