Nurse's Report: Kaitlyn Larsen reported:

Open Airways for Schools- TSJC nursing students will be coming to our school starting this month to help me teach classes to our elementary students with asthma. We have been participating in these classes for the last 7 years and they are very beneficial in helping students with asthma understand the disease and how to control it.

Fun Run- I will be organizing a "Fun Run" for our elementary students next month. The goal of this is just to get kids to be active and to have something fun to look forward to for the end of the school year. Each student (including middle and high school) will receive a pedometer that was purchased through the Make It Happen Grant, which promotes student/staff wellness, healthy activity and healthy nutrition. The pedometers will be a fun way for students to track their activity levels. These will also be used to incorporate step challenges and fun competition between grade levels and among staff.

Pre-Prom Presentation- A few officers from the Alamosa Police Department will be coming this month to do a presentation for our high school students prior to prom. The presentation will be similar to the "Alive at 25" class, in hopes of educating our students and keeping them safe.

Accountability Report: Dave Crews reported:

The group met on March 6th, 2022 and went over the School Budget Process, they also discussed strengthening the community survey on the website, wanted to see if it would be better to go to a Google system. They will meet again in May before the end of the school year.

PK-12 Principal Report: John Stephens reported:

We are in the middle of State Assessments. We have completed our first two sessions of ELA for 3rd -8th grade.

4-13 SAT will take place for our Jr.s from 8-12

4-14 PSAT will take place for our 9th and 10th grades.

4-18 No School

4-21 Alive at 25 assembly for our HS Students.

2-22 Prom will be from 8-11 Students will clean up, change and prepare for after prom to be held at the pool.

After prom will end at 3:30

Next year I would like to implement a math coach position. This would emulate the ELG but only geared toward Math. This position would first focus on EL and building small group interventions based on data. Then begin to move into MS and HS. I feel that this is needed and would set us apart from other districts. Nationally math scores are down and trending and feel that if we can get in front of the curve ball we will be in very good shape for our future
