*NOTE: State law requires each local board of education to establish high school graduation requirements that “meet or exceed any minimum standards or core competencies or skills identified in the state’s guidelines for high school graduation requirements. . . .” C.R.S. 22-32-109(1)(kk)(II). These requirements apply to students enrolling in the ninth grade in the 2017-18 school year (i.e., the class of 2021). This sample contains the content/language that CASB believes best meets the intent of the law. However, the board should consult with its own legal counsel to determine appropriate language that meets local circumstances and needs.*

## **Graduation Requirements** (Beginning with the Class of 2021)

*NOTE: The following matrix reflects the college and career readiness measures for English and Math in the state graduation guidelines and CDE Graduation Guidelines Menu of College and Career Ready Demonstrations. Each local board must choose one or more of the following measure(s) as its own, board-identified measures. To provide students with as many options as possible, a local board should include all measures available in the district. A local board may also raise the minimum score required (i.e., “cut score”) on a particular assessment if it chooses to do so. CASB encourages local boards to collaborate with district administrators to determine the measures and cut scores/criteria that meet local needs and circumstances.*

*NOTE: A local board may include measures and cut scores/criteria in Science, Social Studies, Art or other academic standards if it wishes to do so. If it does, these measures should be included here with the appropriate heading (e.g., “Science”) and with the cut scores/criteria that students must meet to graduate.*
