

## **Workplace Health and Safety Protection**

The Board is committed to providing a safe work environment for all employees. When district employees know or have reasonable concern about workplace violations of government health or safety rules, or about an otherwise significant workplace threat to health or safety related to a public health emergency, they should report such concerns following the district's concerns, complaints, or grievances procedure.

### **Public health emergency**

For the purposes of this policy, a public health emergency means a public health order issued by a state or local public health agency or a disaster emergency declared by the governor based on a public health concern.

### **Nondiscrimination**

The Board, the superintendent, other administrators, and district employees will not unlawfully discriminate, take adverse action, or retaliate against any employee who, in good faith, raises any reasonable concern about workplace violations of government health or safety rules, or about an otherwise significant workplace threat to health or safety related to a public health emergency if the district controls the workplace conditions giving rise to the threat or violation. Discrimination against an employee who opposes any practice they reasonably believe is unlawful or who participates in an investigation, proceeding, or hearing on such matter is also prohibited.

The Board, the superintendent, other administrators and district employees will also not unlawfully discriminate, take adverse action, or retaliate against any employee who voluntarily wears their own personal protective equipment, such as a mask, faceguard, or gloves, if the personal protective equipment:

1. provides a higher level of protection than the equipment provided by the district;
2. is recommended by a federal, state, or local public health agency with jurisdiction over the district; and
3. does not render the employee incapable of performing their job or fulfilling their job duties.

### **Notice**
